

Nordic Triathlon Cup 2024

Triathletes from the Nordic countries can look forward to even more opportunities to challenge themselves and enhance their skills in 2024. The Nordic federations have come together to introduce the Nordic Triathlon Cup starting from 2024.

The Nordic Triathlon Cup consists of three exciting competitions spread out over the summer and autumn. The first leg takes place on June 8th in Finland, marking an exciting start to the new cup. The competition continues July 28th in Estonia and culminates with the final on September 14th in Denmark.

The new Nordic Triathlon Cup provides triathletes with the opportunity to compete in safe environments with a high level of competition while also strengthening the existing bonds between the Nordic triathlon federations. This initiative continues the good tradition of cooperation, especially evident in youth and junior triathlon.

Mads Freund, chairman of Triathlon Denmark, expresses enthusiasm for being part of the Nordic Triathlon Cup: *"We are very pleased to be part of the Nordic Triathlon Cup alongside our Nordic friends, and we hope that the Nordic Triathlon Cup can help strengthen the good cooperation already existing between the federations. We look forward to sending our Danish athletes to Finland and Estonia and welcoming them to Aarhus on September 14th."*

Standings and ranking

In the Nordic Triathlon Cup, 150 points are awarded for a victory. Thereafter, the point total is reduced by 7.5% for each subsequent placement. The athlete with the best overall score wins. After each leg, the overall score is calculated, and the overall leaderboard is continuously updated.

It is the five federations from Sweden Norway, Finland, Estonia, and Denmark who arranges the Nordic Triathlon Cup. Athletes from these countries will receive invitations and be prioritized on the start lists. Any remaining spots will be allocated to triathletes from other nations who wish to participate.
